# Environmental Statement

As a responsible forward-thinking logistics business, Firstpoint Logistics takes the principle of environmental sustainability seriously.

We recognize our responsibility to the environment, its protection and we are committed to minimising our CO2 Emissions and waste whilst utilizing sustainable energy sources.

To demonstrate our commitment, we have established the following principles\*

#### Measure

We will monitor, measure, and continually seek to improve our environmental performance.

#### Communicate

We will communicate and promote environmental awareness at every level in our organisation on a regular basis.

#### Procurement

When we buy products or services, we will ensure we include environmental metrics in our decision making.

#### Management System

We have adopted an environmental management system in accordance with ISO 14001:2015

#### Legislation

We will ensure we fully comply with the latest relevant legislation and codes of practice. We have identified and will ensure compliance to all obligations

#### Minimise

We have an ambition to reduce our CO2 usage in the following areas:

- Fleet and Transportation
- Facility Management
- Information Technology

\*We will review this policy annually or as required in accordance with our internal management reviews.
